

Shalabolinskaya Pisanitsa. Area 6a. Area 6a. Panel 7

Description

In the upper part of the panel, there is a contour image of a red deer with an image of a moose below. Both animals are made in a skeletal style. They have massive bodies with a small hump, short necks, heads with an elongated neck, horns, and limbs down. The red deer has a silhouette head. The figures are imaged with an inclination upward, as if rising uphill. Below the images, there are some partial zoomorphic figures. To the right, there is a zoomorphic figure of probably a roe deer.

Technical description

On the panel, the rock is damaged. It is cracked, some blocks are broken. The lower images are badly patinated.

Epoch

Neolithic

Style

Minysinsk

Method

Retouch
