

# Shalabolinskaya Pisanitsa. Area 2a. Area 2a.Panel 4

## Description

On the panel, we can see a multi-figured composition with zoomorphic figures. In the upper part, there are six large contour animal images, probably, deers. They all have a massive body with a notable hump, and a head with an elongated muzzle. Some of the animals have horns. Two upper figures have no upper part because of the rock loss. One of the animals is showed partially. Below, there is an image of a bear made with thin pecking.

## Technical description

The surface is damaged with erosion processes, the upper part is lost.

## Method

Retouch
